SUMMARY

A BTech final year student in Computer Science Engineering at VIT Bhopal University, seeking internship and full-time opportunities to gain practical experience and apply theoretical knowledge in programming, development, machine learning and artificial intelligence. Interested in effectively contributing to innovative projects and learning from experienced professionals in the field.

EDUCATION

VIT Bhopal University <i>Bachelor's Degree in Computer Engineering GPA: 7.73</i>	Bhopal, Madhya Pradesh <i>September 2022 – Present</i>
Neeraj Public School <i>Central Board of Secondary Education HSC Percentage: 70.80%</i>	Rajnandgaon, Chhattisgarh <i>June 2021 – July 2022</i>
Neeraj Public School <i>Central Board of Secondary Education SSC Percentage: 77%</i>	Rajnandgaon, Chhattisgarh <i>June 2019 – March 2020</i>

EXPERIENCE

Software Developer Intern <i>Godjn Solutions Pvt Ltd (Remote)</i>	Oct 2024 – Jan 2025 <i>Pune, Maharashtra</i>
<ul style="list-style-type: none">Utilized Core Java and Spring Boot to contribute to the development and maintenance of banking application functionalities such as login, registration, and other bank services.Integrated backend services with React frontend, ensuring seamless communication between client and server.	

PROJECTS

- Archimart: E-Commerce Application** *Java, Spring Boot, Spring Data JPA, MySQL, RESTful APIs*
- Built a scalable e-commerce backend application using Java and Spring Boot with layered architecture.
 - Implemented core features such as customer registration, product catalog, cart management, and order processing.
 - Designed and developed RESTful APIs for efficient client-server communication.
 - Utilized Spring Data JPA and MySQL for robust data persistence and ensured transactional integrity.
 - Applied product thinking to define features and user flows; collaborated across front-end and back-end integration.
- Unichat: Web-based Chatting Application** *Python, React.js, MongoDB, Socket.io*
- Developed web-based chatting application using React, MongoDB, and Socket.io for seamless user communication.
 - Implemented user authentication, group chat, messaging, and data persistence features.
 - Handled both front-end and back-end development with real-time messaging using Socket.io.

TECHNICAL SKILLS

Programming Languages: Java, Core Java, OOP, Python, JavaScript, SQL, MySQL, MongoDB
Frameworks/Tools: Spring Boot, Spring Data JPA, Hibernate, React.js, HTML, CSS, Bootstrap, GenAI, REST APIs
Others: DSA, Problem Solving, Design Patterns, Product thinking, Figma, Wireframing, Postman

CERTIFICATIONS

Java Foundation Certification (Infosys)	Programming using Java (Infosys)
AWS Academy Cloud Architecting	AWS Academy Cloud Foundations
GEN AI Using IBM Watsonx	Applied Machine Learning in Python
Fundamentals of AI and ML	100 Days of Code Python Bootcamp

EXTRA CURRICULAR ACTIVITIES

- Organized Breast Cancer Awareness campaigns and coordinated events for deaf and mute children at Aarambh Ek Prayaas Foundation, demonstrating empathy and social impact.
- Played integral roles in planning and executing university-level fests and initiatives, balancing multiple responsibilities in fast-paced environments.
- Representative of the Discipline Committee, managed communication, team coordination, and student feedback.
